

TESTIMONY OF DANE BRISCOE
STUDENT, CAPITOL HILL MONTESSORI AT LOGAN
April 14, 2016

Hi. My name is Dane Briscoe. I live in Ward 7. I'm in the 3rd grade at Capitol Hill Montessori at Logan, and my teacher is Ms. Lowery.

Our school needs new paint, new heaters, new air conditioning, and a bigger cafeteria.

We need new heat. A friend and I took the temperature of our classroom for 2 weeks. The highest temperature was 78 degrees. When it is too warm in our classroom, we have to turn on the air conditioning to cool down the room. Sometimes in the winter during cold temperatures, we have to turn on the air conditioner because it is too hot. It needs to be fixed. It is hard to focus when you are really hot and get headaches from the heat. This is my reason why we need a new heating and cooling system.

We have a lot of reasons to improve our school that you have heard or will hear from my classmates. Please support our school. Thank you for your time.
